DETAILED ACTION

Amendment

1. Acknowledgment is made of Amendment filed May 22, 2006.

Allowable Subject Matter

2. Claims 1-4 and 6-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Thompson (US 6,065,880) teaches an adapter having an L-shaped housing is configured for removable attachment to a conventional PDA. The adapter is electrically coupled with the PDA and includes a laser or other light source configured to selectively emanate a light beam that can be modified into a digital signal. The digital signal can be received by a photo detector on a computer for facilitating a download of data from the PDA to the computer. The light beam from the laser can also be used as a presentation pointer. The adapter further includes a photo detector which is selectively positioned relative to the laser so that the light beam from the laser can be reflected off a bar code and received by the photo detector. The reflected signal is then converted to a digital signal which is then forwarded to the PDA for storage or access of other corresponding information.

Carlson (Des.426,549) teaches a slide-on accessory for a personal digital assistant having side walls, which conform to the surface of the PDA.

Applicants' remarks on page 5+ of the Amendment filed May 22, 2006 have overcome the prior art rejection. Thompson and Carlson, taken alone or in combination thereof, fails to teach or fairly suggest an adapter unit that communicates with a personal digital assistant (PDA), having a carrier portion that includes two sidewalls and a bottom wall, that conform to a

surface of the PDA, at least a portion of each of the two sidewalls are curved to partially encompass at least a portion of a display-side surface of the PDA; and a product identification reader that is encased in the carrier portion and reads a product identification code.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
